

LISTENS

We commissioned acclaimed architect Frank Gehry and experts in the field of water and landscaping to conduct an independent, data-driven study of the Los Angeles River to explore the full potential of this unique natural resource. We are working hard to ensure the river integrates design and infrastructure to bring people and nature together and need your input in reimagining the Los Angeles River as integral to a healthy, vibrant and resilient region for everyone.

LISTENS

Estamos trabajando con el prestigioso arquitecto Frank Gehry y expertos en áreas de hidrología y urbanismo están conduciendo un estudio independiente basado en información para mejor entender el Río de Los Ángeles como un recurso natural de mejor manera. Necesitamos su participación para realizar el potencial de nuestro río y asegurarnos que el diseño y la infraestructura del Río de Los Ángeles incluya la vinculación de la comunidad y la naturaleza.
